

Projet clinique autour du repositionnement d'une consultation infirmière de santé au travail

Laure Virgilio, Sylvie Bavaud & Hélène Girard
Etudiantes Master en Sciences Infirmières 2^{ème} année

Institut universitaire de formation et de recherche en soins

IF YOU WANT TO GO FAST, GO ALONE.
IF YOU WANT TO GO FAR, GO TOGETHER.

- AFRICAN PROVERB

But de la présentation

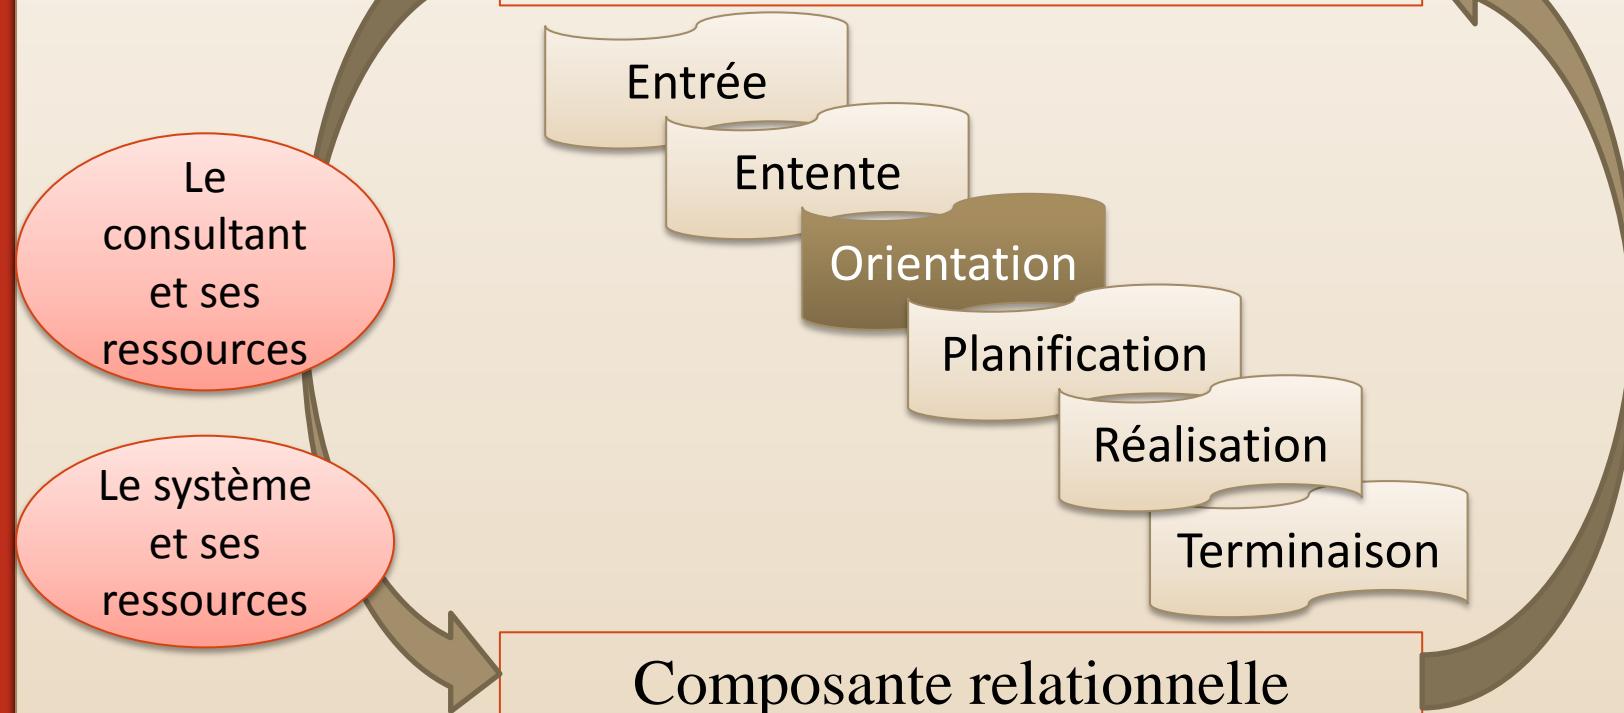

Décrire un processus de repositionnement d'une consultation infirmière de santé au travail basé sur le Modèle Intégré d'Intervention de Lescarbeau, Payette et St-Arnaud (2003)

Lescarbeau, R., Payette, M., & Saint-Arnaud, Y. (2003). *Profession: consultant*. Boucherville, Québec: G. Morin

Contexte du projet

1. Mandat Clinique de La Source
2. Modification des besoins de la clientèle
3. Perspective de cheminer vers une pratique infirmière fondée sur des résultats probants

Composante méthodologique: 6 étapes

Adaptation de Lescarbeau, R., Payette, M., & Saint-Arnaud, Y. (2003). *Profession: consultant*. Boucherville, Québec: G. Morin

Composante méthodologique (2)

Entente

Extrait

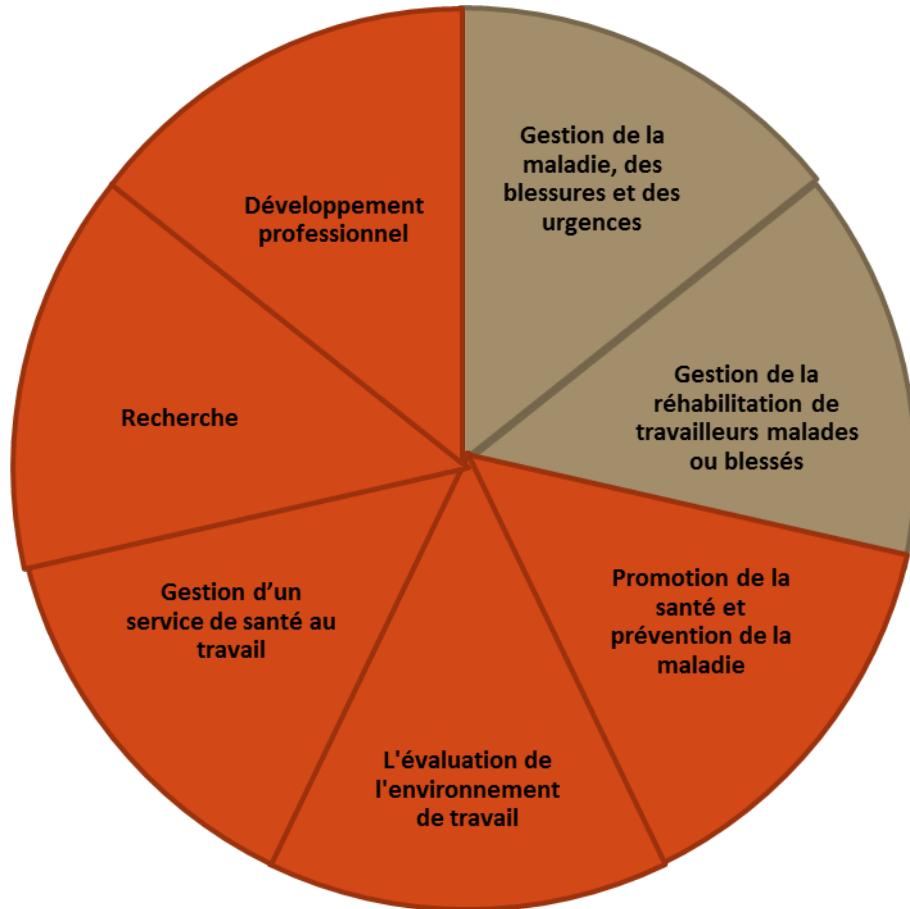

Opérations : Champ d'investigation

- Collecte de données concernant l'activité de la consultation
 - Revue de littérature
 - Mots clés: occupational health nurse AND advanced practice nursing; occupational health nurse AND practice; occupational health nurse
 - Bases de données : Pubmed, Cinhal, Medline, INRS
 - Critères de sélection :
Langues : français et anglais
Articles <10ans
 - Types : revues systématiques, méta analyses, études observationnelles
 - Sélection finale selon la qualité, la pertinence de l'article, le contexte similaire à la situation initiale
 - La méthodologie de recherche « boule de neige » ainsi que les références proposées dans les différents articles ont également été explorées.
 - Recueil des perceptions des acteurs impliqués
 - 1) Focus groupe avec les infirmières de la consultation
 - 2) Focus groupe avec les acteurs impliqués
 - Entretiens avec deux experts

Composante méthodologique (3)

Orientation

Compétences
traditionnelles et
émergentes

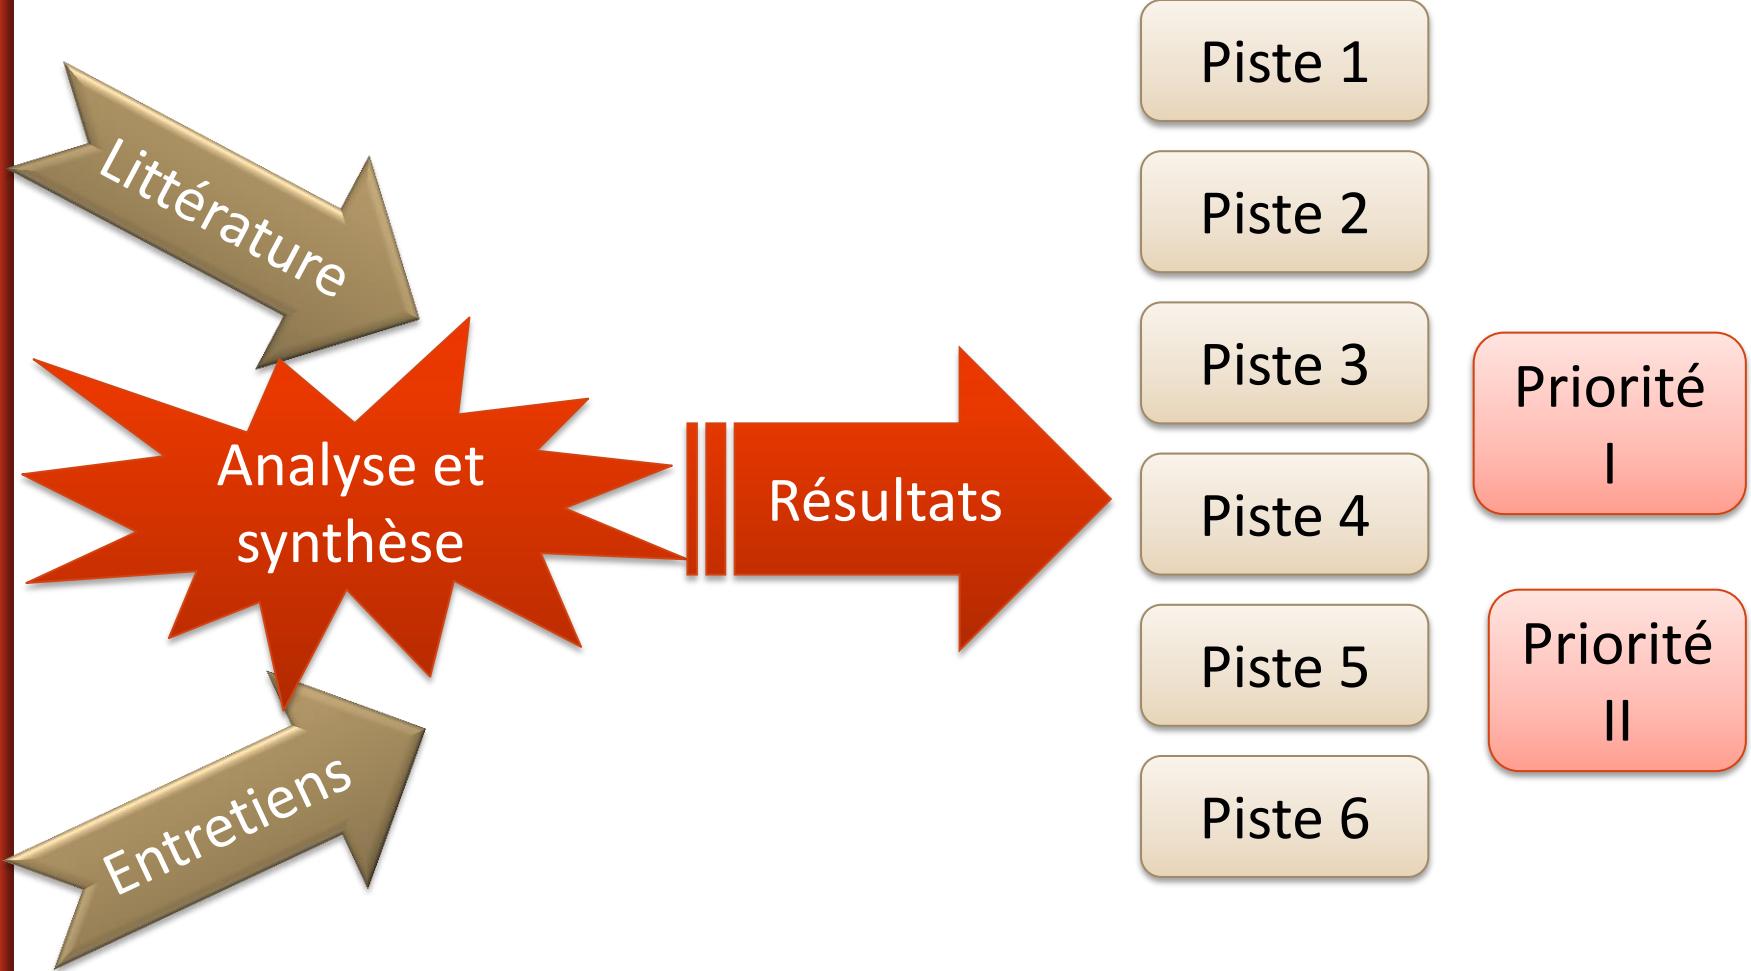

Composante méthodologique (3)

Orientation

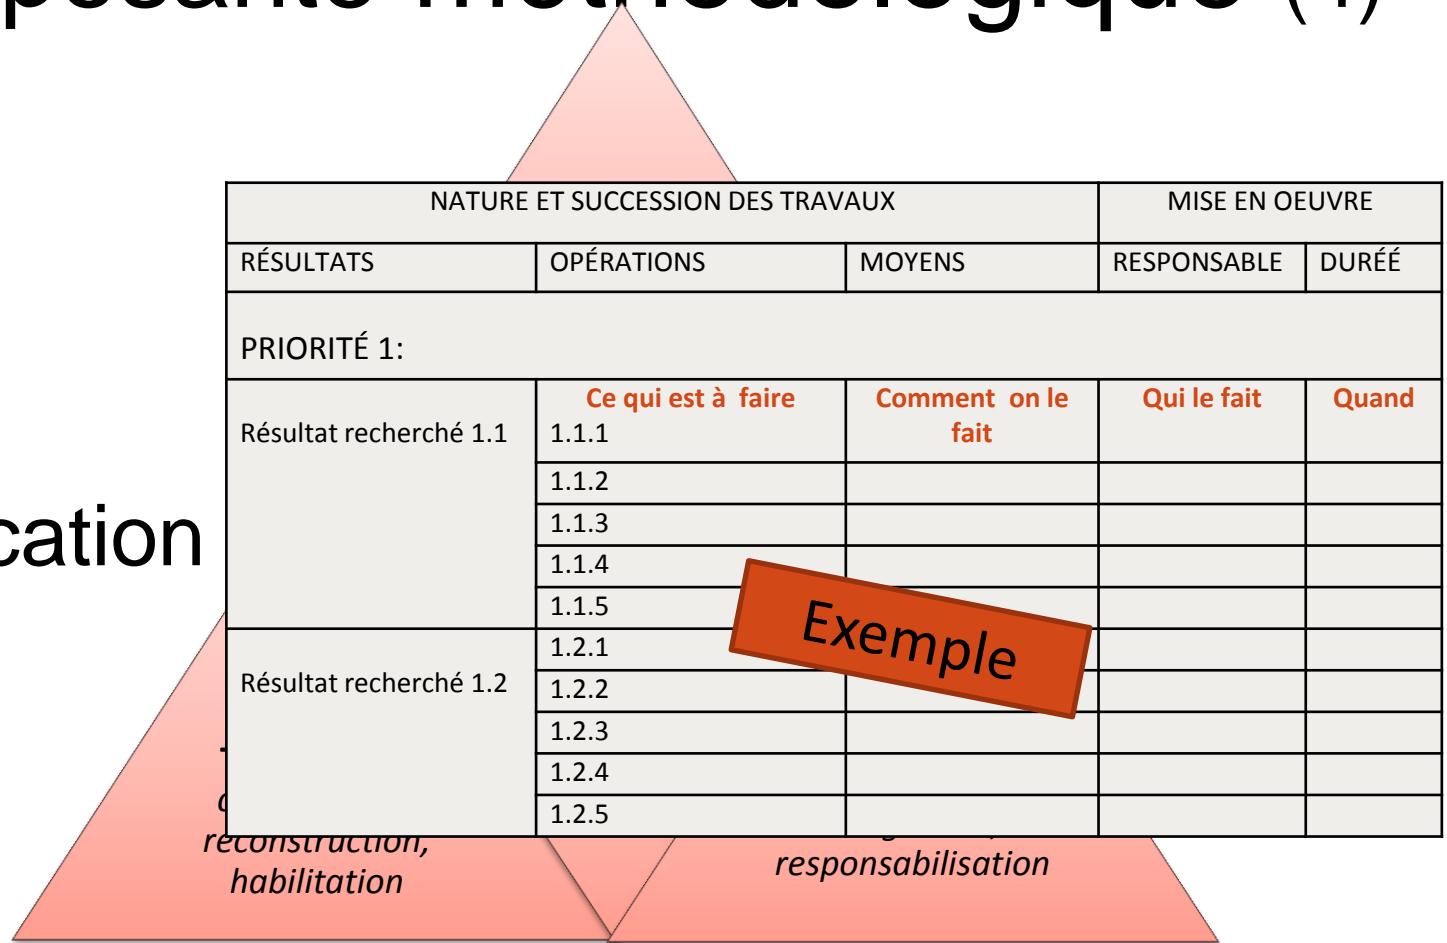

Composante méthodologique (3)

Composante méthodologique (4)

Planification

Doyon, O. (2014). *SII238 Développement et direction de projets cliniques de soins –Notes de cours 7.*

Composante méthodologique (5-6)

Réalisation

- Présentation du plan d'action
- Coordination des opérations
- L'implantation du projet

Terminaison

- Evaluation de l'intervention:
 - Atteinte des objectifs
 - Absence d'effets secondaires
 - Enracinement**
 - Transfert des responsabilités**
 - Rentabilité
 - Pertinence
- Conclusion de l'intervention

Conclusion
